Tarot offers the gift of becoming who you truly are: a being awakening to your potential of living a life of tremendous Joy. My intent with my readings and classes is to connect you to the expansive wisdom of the Tarot so that you may begin to live in this Joy. I invite you to join with me in this adventure on the cutting edge of consciousness through my Tarot classes, one-on-one mentoring or with my Therapeutic Psyche Integration.

Having worked with the Tarot for over 30 years, I am constantly taking the Tarot into new territory. Certified through the True Guidance Institute as an Inner Harmony and Voice Dialogue practitioner for integration of the psyche, I am now using the Tarot for therapeutic work. You also may have read my Tarot Wise column in the Wholistic Heartbeat where I am currently enjoying the challenge of introducing my readers to the esoteric Tarot on the Tree of Life

Tarot Classes & Offerings See My Website

Tarot As An Evolutionary Path: This gestation course covers every card of the Tarot, meeting twice a month over a 9 month period. Through journaling, discussion and personal readings, you will understand the connection of these 78 cards with your own life and the Cosmic vision. Appropriate for all levels.
New classes begin January 2020.

The Esoteric Tarot on the Hermetic Tree of Life. We begin with the Minor Arcana on the Lightning Path of the Tree. We then work our way through the Initiatory Paths of the Majors. These classes require a deep commitment to growth and awakening. Experience with the Tarot is preferred.
Classes begin again in January 2020.

Ongoing Private Tarot Classes and Tarot Readings: We can begin our work whenever you like. Readings and classes in-person in my Garden Studio or with Skype, Zoom or the phone. With my readings you receive an MP3 recording of the session.

Therapeutic Psyche Integration is a magical technique that enables you to take action with the information received in a Tarot reading. Using the techniques of Voice Dialogue and Inner Harmony, I help guide you deep into your inner psyche where together we can transform any blocks you may have to your inherent, Joyful Self.
