

Humboldt Quantum Alignment Collective

Powered by **HEALY**

Let's raise the frequency of our community together! 

HEALY is a wearable biofrequency device that scans our energetic field to identify what frequencies will most support our body/mind/spirit/lifestyle + restore harmony. **HEALY** then delivers the most resonant frequencies through low intensity frequency specific micro current technology(FSM), a magnet torus field to the body or through the quantum. When we come into alignment, our body's innate power to heal itself becomes available. **HEALY** is a potent tool that supports our journey.
