HEART OF THE ROSE

HEALING SERVICES FOR WOMEN

- ❁ CranioSacral Therapy for women & infants
- ❁ Intra-oral TMJ release ❁ Infant Massage
- ❁ Placenta Medicine

I love this place we call home, Northern California by the sea. I love the animals & birds, the tall trees, the ocean, the mountains and the forests.

I love the spirit of this place; being here helps me live in my body with ease. I feel Mother Nature's energy and potency here, and I love Her. This love is what inspires my offerings of healing services to our community.

I am a **Certified CranioSacral Therapist**. I specialize in craniosacral therapy for **women and infants**, treating: TMJ disorder, migraine headaches, digestive problems, tinnitus, anxiety and panic disorders, depression, colic, nursing challenges, infant irritability, shoulder dystocia, and physical / spiritual integration after birth.

I am a **Placenta Medicine Encapsulation Specialist**, and offer encapsulation service, preparing your placenta using Traditional Chinese Medicine. My website contains research, information, and testimonial evidence from local women who've experienced the benefits of ingesting their placenta medicine. The values inherent in **CranioSacral** therapy are the foundation for all of my work. I approach my time with you with meditative presence, patience, deep listening, and compassion. I am happy to celebrate my 21st year in practice, and am grateful to be part of Humboldt County's healing community.

My practice is located in **Arcata** and I can be reached at **707-498-5952** ~ Please call for more information about scheduling and pricing, and visit my website for an overview of services offered: www.heartoftherose.net
