since 2000

Are you looking for quality treatment with an experienced Clinical Massage Therapist?

I understand we all have specific needs and approach my work with integrity and competence. I show up for my clients professionally with a calm and grounded presence. My work is educated and thorough with each session tailored to the individual needs of my client. My advanced training, over 20 years of experience and personal healing from trauma and injury have deeply influenced my practice. This brings forth the insight and compassion that I carry in my work today.

Massage therapy is a lifelong passion of mine and I am grateful every day to help people in this way!
